

Proposed Do Not Call Rule : I am not in favor of any action that would reduce the effectiveness of Indiana's existing law. I used to get 6 to 12 calls each evening and 10 to 12 each day of the weekend including Sundays. Since I signed up with the Indiana No Call system, I have had one call since it went into effect. Now when I answer the phone I know it is either family or wanted business contacts. The Indiana law is the best thing that has happened with my phone service in many years. I can even turn off my answering machine now and pick up legitimate calls rather than have to sort through a large number of calls that were often rude and certainly unwanted.

Thank You,

Doyle Edward Harris
